PRESS COMMUNIQUÉ.

Fort St. George, October 22, 1937.

[Labour—Strike—Carnatic mills.]

No. 679.—

The Madras Government note with regret that there have been recently a number of strikes in the province and that instances have occurred of labour giving room for complaint on the part of the employers concerned that adequate time was not previously given for a consideration of any alleged grievances. While it is not the intention of the Government to curtail in any way the rights of the workers, the Government feel it incumbent on them to declare clearly their attitude in regard to trade disputes. It does not help the interests of labour to resort to strikes without prior representation and negotiations. The Government strongly disapprove of strikes when all other available methods of representation have not been exhausted. They are not unaware that whether due to ignorance or fear of victimization there has been reluctance in certain cases, for leaders among the workers to approach the employers direct. Whether this fear is groundless or not, the Government will always be glad, in such cases, to help workers and their representatives to have their point of view prominently brought to the notice of their employers. The declared policy of the Government is that "internal settlement" is preferable to "external settlement" of trade disputes. The Government will therefore be glad, if those concerned co-operate with them and see that they are not called upon to intercede in strikes declared before exhausting all avenues of negotiations between the employer and the employed.

2. The Government desire to point out that major issues giving rise to any strikes are jeopardized by side issues that always arise out of any hasty resort to direct action. The Government would much desire that there should be no disturbance of the industrial organization of the province and appeal for harmonious co-operation between labour and industrial managers; and that workers who should have every confidence in the Government may not resort to strikes unless the issues are very grave and even then not until every other possible way out has been tried. The Government therefore trust that those who have the welfare of industries and labour will see that this, their declared policy is implemented.

Statement of the Madras Labour Union.

The Madras Labour Union has carefully perused the Communiqué, dated 21st October, issued by the Madras Government, in the matter of trade disputes and wishes to assure all the authorities concerned its fullest co-operation in securing that the declared policy is fully implemented. The union as a token of its fullest support of the policy now declared wants to make it quite clear that it does not support or approve of the action of the strikers on the 2nd instant, and commends to all the workmen in the Buckingham and Carnatic Mills, the procedure suggested for redressal of grievances hereafter in order that genuine grievances wherever existent may best be redressed and the harmonious relations between the employer and the employee may not be unnecessarily jeopardized.

Statement of the Buckingham and Carnatic Mills.

In view of the Communiqué, dated 21st October 1937, issued by Government and the statement of the same date published by the Madras Labour Union, we are prepared to modify the terms which we have already offered to the work-people in Carnatic Mill who struck work on 2nd October. We will receive applications from these men for re-employment. They will be taken back without loss of service and such benefits as are or may be due. In other words, they will only lose such pay as is normally forfeited by absence from work.

NEW CATTLE FAIR AT SHEETANADI IN SOUTH KANARA.

In response to the requests of the ryots of South Kanara, the District Economic Council, South Kanara, has decided to hold a new Cattle Fair in South Kanara at a central place—Sheetanadi—situated on the Mangalore-Agumbe road at its junction with the Hebri-Sheetanadi road. The Cattle fair will be annual, opening on the Vaikunta Ekadasi day (which comes off this year on Tuesday the 14th of December) and lasting for seven days. The time has been selected so as to leave a clear interval of ten days after the close of the Kulgunda cattle fair to enable dealers leaving Kulgunda to reach this fair in time.

Arrangements will be made for the convenience of all attending the fair. The site allotted is within two furlongs of the Sitanadi river and there is abundant pasture available in the Reserved Forest nearby. It is proposed to award prizes to the best cattle produced, if funds permit.

All cattle owners and ryots of Mysore, South Kanara and all other parts are cordially requested to attend.

M. V. VELLODI,
Collector and President, District Economic Council, South Kanara.

MADRAS COMMERCE REPORT FOR THE MONTH OF SEPTEMBER 1937.

Overseas Trade Statistics for August

The returns relating to the foreign trade of the Madras Presidency for August 1937 recorded an increase in imports but for the first time for many months a decrease in exports was registered, as compared with the corresponding month of the previous year. Imports advanced by Rs. 110·57 lakhs and exports declined by Rs. 24·16 lakhs. The principal gains in exports were groundnuts (+Rs. 9·35 lakhs), manganese ore (+Rs. 8·58 lakhs), cotton piecegoods, coloured, printed or dyed (+Rs. 8·35 lakhs), tobacco unmanufactured (+Rs. 3·73 lakhs), rubber raw (+Rs. 3·56 lakhs), coir yarn (+Rs. 2·84 lakhs), coir mats and mattings (+Rs. 2·65 lakhs), tanned cow hides (+Rs. 1·85 lakhs) and other articles (+Rs. 1·29 lakhs). Decreases in exports were recorded under cotton raw (—Rs. 40·68 lakhs), tea-black (—Rs. 15·60 lakhs), fruits and vegetables dried, salted or preserved—all sorts (—Rs. 7·27 lakhs) and tanned goat skins (—Rs. 6·91 lakhs). There were increases in imports under cotton raw (+Rs. 4·61 lakhs), vehicles (+Rs. 3·78 lakhs), paper and pasto-board (+Rs. 3·51 lakhs), dyeing and tanning substances (+Rs. 3·36 lakhs), machinery and mill work (+Rs. 3·03 lakhs), artificial silk (+Rs. 2·42 lakhs), fuel oils (+Rs. 2·01 lakhs), hardware (+Rs. 1·94 lakhs), metals and ores—iron and steel (+Rs. 1·52 lakhs) and other articles (+Rs. 21·72 lakhs), whilst decreases were recorded under cotton piecegoods (—Rs. 3·30 lakhs), manures (—Rs. 2·86 lakhs), and arms, ammunition and military stores (—Rs. 1·51 lakhs).

Commodity Values in the Month of September.

World commodity markets continued to be unsettled during the month of September and are likely to remain so pending a clarification of the American business position, for if the American demand for raw materials fails, it is difficult to see how a fall in commodity prices can be prevented. All that can be said at the moment is that any further rise in commodity prices, increased primary purchasing power, and increased international trade postulates the continuance of industrial recovery in the United States. Business activity has its pauses and recessions in an upswing, and with credit remaining easy and the rise in costs not yet out-weighing the increase in purchasing power, the long-term outlook still appears fairly hopeful provided conditions in the United States do not deteriorate further. Prices of some of the more important Madras commodities took a downward turn in September. World cotton markets continued to decline and Indian cotton, already out of parity with American cotton, was completely neglected by overseas buyers. Trade in Indian mill cloth improved and prices of Indian mill-yarn showed an upward tendency. The tanned hides market was weak and prices declined, but the tanned goat skins and tanned sheep skins markets were fairly steady. Groundnut weakened further. The paddy and rice, pepper, coir-yarn and ginger markets were steady but values of copra and coconut oil declined slightly. The sugar market was steady and prices improved by one to two annas per cwt. The production of matches by cottage factories expanded and arrivals from outside India also increased. Prices of matches were unchanged and demand was normal for the time of year. Further quantities of Japanese nitric acid were imported during September and although the demand for locally manufactured acids was good, prices declined owing to the availability of the Japanese products.

Groundnuts.

A weak undertone was apparent in the groundnut market during the greater part of September, but with a slight improvement in demand prices showed a tendency to rise towards the end of the month. The average wholesale prices of standard varieties at the main producing centres were as follows :—

	Per candy of 561 lb
27th August 1937	Rs. 27-6-0 to Rs. 30-0-0.
30th September 1937	Rs. 26-0-0 to Rs. 28-11-0.

Paddy and Rice.

The paddy and rice markets continued steady with normal demand and prices underwent little alteration. The average wholesale prices of standard

varieties at the main producing centres were as follows:—

Indian paddy per bag of 150 lb.

27th August 1937	..	Rs. 4–8–0 to Rs. 4–16–0.
30th September 1937	..	Rs. 4–8–0 to Rs. 5–0–0.

Indian rice per bag of 176 lb.

27th August 1937	..	Rs. 7–0–0 to Rs. 7–15–0.
30th September 1937	..	Rs. 7–0–0 to Rs. 7–15–0.

Rangoon rice, raw, broken, A-1 per bag of 220 lb.

31st August 1937	..	Rs. 5–14–0 } Madras.
30th September 1937	..	Rs. 5– 2–0 }

Calcutta rice (Nizam) boiled per bag of 164 lb.

31st August 1937	..	Rs. 7–10–0 } Madras.
30th September 1937	..	Rs. 7– 0–0 }

Pepper

Owing to lack of demand and few sellers at prevailing prices, the pepper market remained steady throughout the month except for a small and temporary rise at one period of the month owing to speculative business between dealers.

Cocoanut products.

The coir-yarn markets generally were steady. On account of strong European and Indian demand and very restricted supplies, prices of Quilandy yarn advanced. There was a fair demand for Beypore sunked and Calicut unsunked, yarns, and with poor arrivals prices remained steady. Prices of Cochin yarns were fairly steady, but there was little business passing and with arrivals improving, the undertone was easier. The copra and cocoanut oil markets were inactive during the greater part of the month, and prices, which were based on Colombo quotations, declined slightly.

Cotton Spinning and Weaving Industry

During September trade in Indian mill-cloth was much brisker in the Madras market and dealers were able to liquidate a good proportion of their stocks which they had been carrying for some months. Upcountry inquiries also showed that these markets were in a healthy condition. The Indian mill yarn market, in spite of the decline in cotton values, showed signs of improvement during the month as a result of the expansion in demand attributable partly to the scarcity of Japanese imports and partly to the approach of the Ayuthapooja. The margin of profit on yarn sales is understood to have been satisfactory and replacements were made at higher prices.

Cotton.

Tinnevelly.—Arrivals from the interior were very restricted, ryots still holding out for better prices and showing a tendency to retain stocks. The quality of the later arrivals was slightly better than the average of the previous months, but the long shortage is understood to have affected the class of the cotton. The only buyers during the month were the mills in the Southern districts, inquiries from elsewhere being non-existent. Prices of fair average quality declined from about Rs. 210 per candy of 784 lb. at the beginning to about Rs. 180 at the end of September.

Cambodia.—Arrivals from the interior continued to be very restricted, good lots still being retained by ryots for higher prices. The latest arrivals were slightly better in quality than the average stocks held in the market. Coimbatores mills were the only buyers at Cambodia. Prices of fair average quality declined from Rs. 280 at the beginning to Rs. 270 at the end of the month. The price of average Salem Cambodia fell from Rs. 230 to Rs. 200. There was practically no business in Cambodia grown in the Southern districts.

Sugar.

The sugar market continued steady in September with good demand from upcountry centres. Prices improved by one to two annas per cwt. in sympathy with the increase in Cawnpore prices. The market closed firm with a stronger tone. It is thought that higher prices may be seen in October as dealers are speculating on the possibility of higher prices being fixed for next season and higher Syndicate prices for this season sugar. Madras prices of North Indian sugars ranged from Rs. 16–11–0 to Rs. 20–12–0 per bag of two cwt. in September as compared with Rs. 19–8–0 to Rs. 20 in August. Arrivals of North Indian sugar during the month in upcountry markets were not heavy and there was a good demand for dry sugar from consuming centres. The upcountry markets closed firm.

Tanned Hides and Skins

Tanned hides.—During the greater part of September the market was weak and, although a certain amount of buying took place, there was an appreciable decline in price. Apparently the English trade was dull whilst America dropped out of the market for kips. Towards the end of the month an improvement set in and prices recovered slightly. Quotations on the 30th of September were as follows:—

Pairies 5½ lb. 10½ *d*. Primes 8½ lb. 14 *d*. Cocos 7½ lb. 14½ *d*.

Tanned goat skins.—The demand for tanned goat skins in September was somewhat irregular and restricted as compared with the previous month. Certain special lines found a ready market, but the question of price was an important factor. Owing to the uncertainty of the Continental situation and an accumulation of stocks in the United Kingdom, buyers were only willing to operate for stock purchases at prices ruling during the latter part of July and the beginning of August. Madras prices remained unchanged for the greater part of the month, but towards the end, new orders were accepted at a decline of 1 to 1½ annas per lb.

Tanned sheep skins.—A smaller volume of business was transacted in the better class tanned sheep skins, but arrivals were not of the best quality—and, for low grade tannages and inferior qualities, there was a very restricted market.

Shipments during September were as follows:—

Goat.	Sheep.	Hides.	Cow calf	Buffs.	Buff calf
bales.	bales.	bales.	bales.	bales.	bales.
1,208	1,940	4,843	411	472	175

The falling off in shipments should have a beneficial effect on the London market.

STATISTICS—1937-38—COTTON—SECOND REPORT

The average of the areas under cotton in the Madras Presidency during the five years ending 1935-36 has represented 9·5 per cent of the total area under cotton in India.

2. The area under cotton up to the 25th September 1937 is estimated at 650,700 acres. When compared with the area of 766,700 acres estimated for the corresponding period of last year, it reveals a decrease of 13·2 per cent. The decrease in area is marked in Kurnool and Bellary where the area fell from 332,000 acres to 295,000 acres, i.e., by 11·7 per cent owing mainly to want of timely and sufficient rains.

3. The area in the Central districts and the South relates partly to the last year's crop and partly to the current year's sowings which have commenced in parts.

4. The condition of the standing crop is generally satisfactory, except in Bellary where the early cotton crop suffered from drought and from an attack by the red hairy caterpillar.

5. The wholesale price of cotton lint per imperial maund of 82·2·7 lb. as reported from important markets on 4th October 1937 was about Rs. 18–15–0 for Cocanadas, Rs. 18–11–0 for White Northerns, Rs. 18–3–0 for Red Northerns, Rs. 10–12–0 for Westerns (monsoon crop), Rs. 18–14–0 for Westerns (Jawari crop), Rs. 15–4–0 for Cambodias, Rs. 26–13–0 for Coimbatore-Karungunni, Rs. 25–4–0 for Tinnevelly-Karungunni, Rs. 21–8–0 for Nadam Rs. 19–7–0 for Tinnevellies and Rs. 21–8–0 for Nadam cotton. When compared with the prices published in the last report, i.e., those which prevailed on 6th September 1937 the prices reveal a fall of 6 per cent in the case of Westerns (monsoon crop) and Nadams, 8 per cent in the case of Westerns (Jawari crop), 4 per cent in the case of Cambodia, Tinnevelly Karungunni and Nadam and 2 per cent in the case of Coimbatore-Karungunni, the price of Cocanadas remaining stationary.

The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications or in the tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive Specification Sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in

the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) carriage;
(3) construction plant;
(4) water and light;
(5) cleaning up during progress and for delivery;
(6) accidents;
(7) delays;
(8) particulars of payment; and
(9) responsibilities and liabilities of contractor.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of the schedule, and that the schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Central division, or as set forth in the conditions of contract. The tenderer will however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule "A". This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying the same will be recognized; and if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works department current schedule of rates or to the Public Works department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the rules for completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time as will be insisted by the Executive Engineer's certificates of the value of work done, will be required. Date of payment consistent with programme will be the date on which the site (or premises) is handed over to the contractor

Period after date of commencement.	Percentage of work completed (based on contract lump sum amount).
	PER CENT.
Three months	30
Six months	50
Nine months	70
Twelve months	100

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power of attorney authorizing others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. No payment will be separately made for baling water from foundation and forming protective bunds, clearing jungle at site and diversion of roads required during execution. The rates quoted by the tenderer must include the above-mentioned charges.

17. The tenderer may however mention an earlier date which fact will be taken into consideration and this earlier date will thereafter be considered as the date fixed for completion of the work

weighed in him or his agent's presence and the quantity handed over to him as provided for in section 10 supra. If, however, proof is produced that the entire sale value has been paid, the whole sandalwood purchased will be weighed and handed over. The purchaser must take delivery of and remove the whole of the wood sold to him on or before the 5th March 1938.

Should any excess over the quantity paid for be found in the quantity purchased when weighing at the time of delivery, the excess will be paid for by the purchaser at the rate at which it was originally purchased before effecting removal. If any one purchaser has purchased more than one lot or class and in the one there is any excess in one lot or class and deficit in the other, when weighing at the time of delivery on a particular day, the value of the deficit arrived calculated on the rate at which the main lot or class was sold will be adjusted towards the value of the excess quantity noticed in the other lot or class as the case may be and the balance, if any, still due from the purchaser will be collected before permitting him to remove the quantity delivered during the day. If, however, the net quantity delivered results in a deficit on account of drying over the recorded quantity at the time of sale, the value of the deficit quantity at the purchased rate will be refunded in due course.

12. The accepted bidders when deputing their agents to take delivery, must furnish each agent with a power-of-attorney duly stamped and bearing the signature of the person so deputed. A copy of the power-of-attorney must also be sent to the District Forest Officer by post, with four specimen signature of the agent. Failing this, delivery may be refused pending verification, in which case the delay will count against the accepted bidder.

13. No further cleaning or classification of sandalwood will be undertaken by the Forest department nor will purchasers be allowed to clean any wood previous to weighment. The classification, cleaning and weighment as determined by the Forest department, must be accepted.

14. After the wood has once been weighed and handed over, if the purchaser fails to remove all the wood within the period allowed in clause 11, demurrage will be charged at the rate of Rs. 2 per ton per diem from the last date fixed for delivery until the wood is finally removed.

15. No sandalwood shall be removed from the depot till a licence to remove it signed by the officer of the Forest department, who delivered the wood, shall have been obtained and till every piece of sandalwood that can be stamped bears the department's 'sale hammer' mark.

16. The officer conducting the sale shall be at liberty to stop the sale at any time without giving any reason to the intending purchasers.

17. The wood purchased by each purchaser shall be in the depot at the purchaser's risk from the date of sale until it is removed.

18. The purchaser shall bear the cost of taking delivery of sandalwood.

19. Each intending bidder unless specially exempted by the Conservator of Forests, Salem Circle, Salem, on an application made in writing at least fifteen days before the date of sale, must produce a solvency certificate signed by a responsible Revenue Officer of the district in which he resides; and the District Forest Officer holding the sale may refuse to allow any bidder not so exempted to bid beyond the amount guaranteed in such certificate.

20. The purchaser should give at least seven days' notice of his intention to take delivery, to the District Forest Officer, Vellore West, Tirupattur, supported by bank remittance in token of payment. No delivery will be made on holidays.

21. Any supplementary conditions that may be found necessary will be added and read out at the time of auction.

22. The full quantity of wood advertised for sale will not necessarily be put up to auction.

23. Further particulars can be had on application to the District Forest Officer, Vellore West Division, Tirupattur, North Arcot.

MUHAMMAD HABIBULLAH,
District Forest Officer, Vellore West.

honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. We have examined the amendments proposed by the Bill as introduced, and have made certain modifications.

We are of opinion that the amendment proposed in *clause 5* of the Bill as introduced is unnecessary and we have accordingly omitted the clause.

In *clause 5, now renumbered clause 12*, the words we have inserted are necessary in view of the provisions of the Indian Evidence Act, 1872, regarding privilege of witnesses, particularly the privilege attached to professional communications between legal advisors and clients.

In *clause 7, now appearing as clause 15*, the insertion of the words "whether as pledgee, mortgagee or absolute owner" makes the intention of the proposed provision more clear. We have altered the word "fifty" to "forty". The object of the provision is to ensure that a Banking Company shall not find itself in the position of a holding Company to a subsidiary Company as defined in sub-section (2) of section 2 of the Indian Companies Act by being possessed of over 50 per cent of the shares of the Company, and the danger of this happening inadvertently is reduced if the limit of the shares that may be held is fixed at 40 instead of at 50 per cent.

We have also inserted in the Bill additional clauses embodying amendments designed to correct formal errors in the Act which came to our notice during our deliberations, and to remove certain difficulties arising from the failure in the amending Bill of 1936 to make certain consequential provisions then required. *Clauses 2, 3, 5, 6, 7, 16, 18 and 19* and the corrections of Regulations 77, 106, 109 and 116 of Table A, made by our additions to clause 10 (*now clause 17*) require little comment. Clause 2 supplies an obvious omission. Clause 3 corrects an obvious error. Clauses 5 and 6 bring the wording of sections 86D and 87D of the Act into consonance with section 86F of the Act. Clause 7 supplies an omitted reference to section 93 in section 102 of the Act. Clause 16 repairs an omission in the Amending Act of 1936 which, while altering the provisions relating to winding up failed to amend section 284 to provide for the completion under the existing law of windings-up already in progress. By the additions to clause 17 an incorrect reference in Regulation 77 is corrected, Regulation 106 is brought into agreement with section 131 of the Act, Regulation 109 into agreement with sub-section (3) of section 131, and Regulation 116 into agreement with sub-section (4) of section 145. Clauses 18 and 19 correct printing errors that occur in the assent copy of the Act. The new *clause 8* is intended to remedy the difficulty experienced under section 130 of the Act as it stands by a bank, which must, in the ordinary course of business, keep books of account at the respective branches of the bank, and by a non-Indian company when the section is applied to such a company by section 277E.

The new *clauses 12 and 14* deal with the difficulty of assigning a meaning to the expressions "registered office of the company" and "registrar" for the purposes of the application of sections 109 to 125 of the Act to non Indian Companies which have no registered office in British India, and for whom there is no registrar in British India with whom they can register. In such cases the principal place of business in British India of the company which will be determined by the declaration made under section 277 will take the place of the registered office of the company, and the registrar will be the registrar of the Province in which such principal place of business is situated.

We have declined to entertain any proposals which seemed to raise matters that might be considered controversial.

3. The Bill was published in the *Gazette of India*, dated the 28th August, 1937.

4. We think that the Bill has not been so altered as to require republished and we recommend that it be passed as now amended.

* The time at our disposal was very short. I am of the opinion that there are a number of other matters connected with the Indian Companies Act which require to be substantial amendments than was possible in this Bill. I hope the necessary amending Bill will be undertaken shortly

The following Bill was introduced in the Legislative Assembly on the 5th October, 1937 :—

L.A. BILL No. 40 of 1937

A Bill further to amend the Prevention of Cruelty to Animals Act, 1890.

II of 1890.

WHEREAS it is expedient further to amend the Prevention of Cruelty to Animals Act, 1890, in the manner hereinafter appearing; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Prevention of Cruelty to Animals (Amendment) Act, 193 .

Amendment of section 4, Act XI of 1890.

2. For section 4 of the Prevention of Cruelty to Animals Act, 1890, XI of 1890 the following section shall be substituted, namely:—

Penalty for practising Phuka or Doom dev.

"4. (1) If any person performs or permits any person to perform upon any cow or she-buffalo the operation called "Phuka" or "Doom dev" he shall be punished with fine which may extend to five hundred rupees or with rigorous imprisonment which may extend to three months or with both.

Presumption as to permission to practise Phuka or Doom dev by a person in the employment of a person owning a large dairy.

(2) If the operation of "Phuka" or "Doom dev" is performed on a cow or she-buffalo by a person in the employment of a person owning a large dairy, it shall be presumed until the contrary is proved that the owner of such dairy has permitted such operation of "Phuka" or "Doom dev" by his employee on a cow or a she-buffalo."

STATEMENT OF OBJECTS AND REASONS.

The practice of "Phuka" or "Doom dev," which is practised generally on she-buffaloes, is extremely cruel. It is growing extensively in the last few years. The sole cause for this appears to be the desire for exploitation of the Commercial dairies which are coming into existence to meet the demand of milk in big cities which are periodically expanding. The old section 4 of the Act is limited to cows only. Moreover it aims only against persons who practise "Phuka" but not against their masters who permit such practices. The sentence provided in the old section 4 is not deterrent. The amendment of the Act that is suggested aims at removing all these defects. The Bill provides also for a presumption against owners of large dairies in respect of permission to servants to practise phuka.

The object of the Bill is to put a stop to this cruel practice of phuka on cows and she-buffaloes which is getting alarming in its growth

STATEMENT OF OBJECTS AND REASONS.

The existing International Scheme for regulation of the export of tea and for the control of extension of tea cultivation expires on the 31st March, 1938. The Indian Tea Control Act 1933, which was passed to give effect to the scheme in British India, will also expire on the same date.

2. Representatives of the tea industry in India, Ceylon and the Netherlands Indies have executed an agreement providing for the renewal of the scheme for a further period of five years from the 1st April 1938. After careful consultation with the various interests affected and the Provincial Governments as well as the Indian States concerned the Central Government have decided to give official recognition to the renewed tea control scheme. The specific consent of the Provincial Governors has also been obtained to legislation being undertaken in the Central Legislature regarding the control of extension of tea cultivation which subject falls within the Provincial Legislative List under the new constitution.

3. There has been unanimity of opinion that the control scheme has been beneficial to the tea industry in India and the proposals for legislation have the support of 99 per cent of the industry. The draft Bill is designed to give legislative sanction to the operation of the

renewed scheme for a period of five years from the 1st April 1938. It may be mentioned that the other parties concerned, namely, the Governments of Ceylon and the Netherlands Indies, have already agreed to adhere to the renewed scheme
